

## Turf Removal Professional Services

Did you know that the City of Bozeman offers rebates for removing thirsty turfgrass?

Removing turfgrass can be a time and labor-intensive effort. If you are looking for a helping hand to complete your turf removal project, please see the list of landscaping companies that offer turf removal services, below.

Upgrading your sprinkler system, removing turfgrass, and installing drought tolerant plants is one of the most effective ways to save water at your property. If you choose to pursue the Turf Removal Rebate, be sure to consider other landscape and irrigation upgrades that go hand in hand with removing your turfgrass. The Water Conservation Division offers rebates for the following to its water account holders:

- Removing existing turfgrass from your yard, minimum of 100 square feet (\$100-\$2000),
- Upgrading to a WaterSense® labeled irrigation controller (up to \$250),
- Adding a rain sensor to your irrigation system (up to \$50),
- Adding drip irrigation to your system (up to \$250),
- Installing multi-stream, multi-trajectory (MSMT)
