

Bozeman Heat Pump Water Heater Rebate Pre-Application

The pre-application is an optional step to help ensure that the water heater you plan to install qualifies for the rebate and funding is available. After submitting this application, our City staff will promptly get in touch with you to verify the eligibility of your proposed installation for the rebate. The corresponding rebate funds will be reserved for a period of up to 30 days. Following installation, a rebate form will need to be submitted.

Applicant Information

Name of Applicant Date

Email Phone

Installation Address

This rebate is only available for residences connected to City of Bozeman water. Is the property where the water heater will be installed connected to City of Bozeman Water? Yes No

Are you (Applicant) the owner or tenant of the property? Owner Tenant

Heat Pump Water Heater Qualification

Rebates apply only to **newly purchased heat pump water heater units** that meet the **Consortium for Energy Efficiency (CEE) standard**. A list is available at: <https://www.ahrinet.org/certification/cee-directory>. Rebates are limited to 1 unit, up to \$500 per installation address, and are not to exceed the purchase price. Additional details are available at www.bozeman.net/sustainability

If you know the heat pump water heater model you are planning to purchase, fill out the section below*:

Heat Pump Water Heater Brand

Model Number

*Note: If this section is not filled out and the water heater installed does not qualify, it will not be eligible for the rebate.
