A. Field Requirements and Reservation Information

The Bozeman Parks and Recreation Department reserves the right to change the starting date of field availability. During the month of March, turf is often wet and not actively growing, and therefore susceptible to damage from use. Fields may not be available to reserve until April 1, weather and turf conditions dependent. During any month, especially April and May, it is important that use be cancelled when fields are too wet and may be damaged by play. Should damage result from use, repair costs will be invoiced to the organization at the end of the agreement.
2. Misuse resulting in damage will result in the organizations loss of field use and will affect its ability to reserve fields in the future.
3. The Parks and Recreation Director or Designee shall approve all field preparation vehicles and equipment prior to use. (Section 1.5)
4. Regulation goals must be secured to the ground for safety, using a weight system approved by the Parks and Recreation Director or Designee.

I. Lap Swimming Etiquette

1. Entering the water
Always use a feet-first entry into shallow water. If the lane is crowded, always ease in, using a feet-first entry. You may dive into the pool from the deep end, but only if the pool is completely clear in front of you.
2. Circle Swimming
Follow the arrows on the bottom of the pool for proper lap swimming directions. Do not swim on the blue lines. If you are not sure, ask a lifeguard for assistance.
3. Passing
The best place to pass someone is at the wall. A light touch of the foot of the person in front of you will indicate to them to stop at the wall and let you pass. If you pass in the middle of the pool, it should be between the backstroke flags, and you should pass in the inside or middle of the lane. Make sure the way is clear. You can also lightly touch the person's foot to indicate you will be passing them and they should "hug the lane."
4. Number of People in a Lane
Several people (as many as 6 or more) can fit in a lane if proper etiquette is observed and swimmers of like speed are together.
5. Lane Speed
The lanes are designated Fast, Medium, and Slow. These terms are relative, so the best way to find the lane that is best for you is to watch those that are swimming. If you are the first one in the lane, abide by the circle swimming rules so others may join you. If you aren't sure what lane, ask a lifeguard for assistance. Swimming in the same lane with people at your same pace could help you swim better and have a better workout.
6. Stopping/Resting
If you are resting on the wall, stay to the right side of the lane to stay away from swimmers coming in. Stopping in the middle of the pool should be avoided. If the lane is crowded and one person stops, all will have to stop. Be aware of the swimmers around you at all times. Do not start if a swimmer is inside the backstroke flags.
7. Water Jogging/Walking
Water jogging and walking can take place in lane one, following the direction and rules of circle swimming.
8. The Diplomacy of Shared Space
If someone makes a suggestion concerning any of mentioned etiquette topics, try to make adjustments in the spirit of cooperation. If you make a suggestion to another swimmer, try to do it as diplomatically as possible. Lifeguards will intercede only if there is a problem that cannot be resolved or if there appears to be a safety concern. If you are not sure, ask a lifeguard for assistance.
