| Project Identifier: |
| CIP # WW134 |
| Construction Dates: |
| Fall 2024—Summer 2025 |
| Project Description: |
| Installation of a new Wastewater Lift Station near the intersection of Valley Center Road and E. Valley Center Spur Road. The project will also include installation of a sewer force main from the lift station to the existing gravity sewer main in Davis Lane. |
| Travel Impacts: |
| Little to no traffic impacts are expected with the project. Both the lift station and force main will be located on private property south of Valley Center Road. |
| Updated Project Status: |
| The project is currently in the predesign phase and will continue Spring of 2025. |
