

FORESTRY DIVISION PERMIT - PLANTING

INTRODUCTION

This permit is for persons requesting to plant trees in public areas. Pursuant to City of Bozeman Municipal Code (Ch.16 - Article 5. Trees and Other Vegetation), all tree planting in public areas shall adhere to the following conditions and standards:

- Trees shall have a minimum caliper size of 1.5 inch and be free of defects.
- Tree quality and structure shall conform to the latest standards of the American Standard for Nursery Stock (ANSI Z60.1)
- Utility locates shall be requested and clearly marked at time of planting. (1-800-424-5555)
- Tree species selection shall conform to the Forestry Division Street Tree Guide.
- Each planting shall conform to spacing standards as per detail. (See Reverse)
- Trees shall be planted at the appropriate level, with trunk/root flares clearly visible at finished grade.
- Each planting shall include an application of organic mulch as per detail.
- Trees shall be properly staked for (1) year as per detail.
- Drip or Bubbler irrigation shall be in place for the root zone of each tree. If not, alternative watering methods shall occur during dry conditions for (2) years following planting.
